

## Dual Infrared Beam | Up to 100M

**The Infrared Barrier Beam is a beam with two 100/200m active beams. The PBX technology needs to detect two beam interruptions in order to signal an alarm, reducing false alarms. The PBX Beam has a built-in digital display which is great for quick alignment and status indication.**

Dimensions: 17cm x 8cm x 8cm

### FEATURES:

- Can be used on 10Vdc or 24Vdc systems
- Wide voltage range: 10-18Vdc/ac
- 4 Channel selectable frequencies
- Adjustable response time: 50mS to 2S
- IP55
- Available in 100m version

## Triplicte Infrared Beam | Up to 250M

**The Infrared Barrier Beam is a beam with two 100/200m active beams. The PBX Beam has a built-in digital display which is great for quick alignment and status indication.**

### FEATURES:

- 250 Meters outdoor
- 750 Meters Indoor
- Digital LED display for Channel ID
- Tamper switch built in
- LED indicator for Power and Alarm
- Triplicate Beam
