

TROVA A8 | COST EFFECTIVE TRACKER FOR MOTORCYCLES & VEHICLES

Compact in size, yet packed with various features the A8 is a powerful GPS tracker designed to handle industrial and commercial fleet applications ranging from rental agencies and public transportation to freight transport and beyond. The device also features an external buzzer /horn alarm that makes it easy to locate your car in case you can't find it, further adding to the security of your fleet. In addition to these features remote listen-in and the suite of event-triggered alerts will make the A8 a valuable part of your fleet management strategy.
